Examiner Choudhury:				
<p>I called earlier today to set up a conference call meeting to discuss the rejection of claims 10, 33, and 37 in the above-referenced patent application. The purpose of the conference call would be to get a better understanding of the specific techniques in the DuFresne reference that are being used to reject the claimed invention. In the reply to the last office action, we presented reasons why specific language in the claims distinguished the claimed invention over the cited prior art. These reasons we presented in the last reply were not addressed in the pending office action. We feel that a phone conference at this point will help expedite prosecution of the present application and avoid an appeal.</p>				
<p>Thus, as an agenda, I propose discussing specific techniques in DuFresne used to reject claims 10, 33, and 37. Providing a clarification of the rejection would be helpful.</p>
